Research Profile

I am a PhD student working in the field of theoretical and statistical cosmology under the joint supervision of Dr. Tarun Deep Saini and Prof. Shiv K. Sethi at the Indian Institute of Science (IISc) Bangalore. My thesis is primarily focused on developing statistical methods for cosmological inference with particular emphasis on incorporating the effect of peculiar motion into the analysis. I am also interested in understanding cosmological tensions and their resolution within the framework of scalar-tensor theories of gravity/dark energy.

Education

2021 – Present — **PhD** [Candidate] **in Cosmology**
Indian Institute of Science, Bangalore, India
Thesis: *Investigating the impact of peculiar motion of galaxies on cosmological inference from SNIa data*
Supervisors: Dr. Tarun Deep Saini & Prof. Shiv K. Sethi

2017 – 2019 — **MSc, Masters Degree in Physics**
Banaras Hindu University, Varanasi, India
Specialization: Spectroscopy
Thesis: *Phase Space Visualization of Quantum States*
Supervisor: Dr. Devendra Kumar Mishra

2014 – 2017 — **BSc, Bachelors Degree in Physics**
St. Xavier College, Ranchi, India
Subjects: Physics, Mathematics & Computer Science with `C/C++`

Publications

[1] **Ujjwal Upadhyay**, Tarun Deep Saini and Shiv K. Sethi, *Accounting for motion of supernova host galaxy in statistical inference from SNIa data*, [arXiv:2502.09258]

[2] Yashi Tiwari, **Ujjwal Upadhyay**, Rajeev Kumar Jain, *Exploring cosmological imprints of phantom crossing with dynamical dark energy in Horndeski gravity*, PhysRevD.111.043530, [arXiv:2412.00931]

Computational Experience

Boltzmann Codes: `class, hi_class`
Experience with Boltzmann codes to study scalar field models of dark matter and dark energy.

Statistical Codes: `Cobaya, Monte Python`
Skilled in Bayesian analysis of cosmological models, with experience in Cobaya and Monte Python codes for statistical inference.

High Performance Computing
Experience with high-performance computing clusters for MCMC analysis.

Programming Languages
Skilled in C/C++ and Python.

Operating Systems
Proficient in Linux, macOS, and Windows environments.

Other Software & Tools
Proficient in Mathematica, GetDist, and Latex.

Teaching Experience

Teaching Assistant, for the course 'General Relativity and Cosmology' with Dr. Sanved Kolekar, from January 2024 - April 2024 at IISc, Bangalore.

Teaching Assistant, for the course 'Fundamentals of Astrophysics' with Prof. Nirupam Roy, from August 2023 - December 2023 at IISc, Bangalore.

Achievements

Best Teaching Assistant Award 2024 for the course Fundamentals of Astrophysics, Indian Institute of Science, Bangalore.

All India Rank 28 in the Graduate Aptitude Test for Engineering (GATE) for Physics, 2021.

All India Rank 48 in Council for Scientific and Industrial Research (CSIR) – Lectureship for Physics, 2021.

State Topper in the National Graduate Physics Examination (NGPE), 2017.

Conference and Seminars

[01/2025] – **Oral Presentation** in PDA Student Seminar at the Indian Institute of Science, Bangalore.

[12/2024] – **Oral Presentation** in the 2nd Neighbourhood Cosmology Meeting at the Indian Institute of Science, Bangalore.

[11/2024] – **Oral Presentation** in In-house Symposium at the Indian Institute of Science, Bangalore.

[11/2024] – **Poster Presentation** at Kashiwa-no-ha Dark Matter and Cosmology Symposium, Kavli IPMU, Tokyo, University.

[10/2024] – **Poster Presentation** at 27th International Conference on Particle Physics and Cosmology, COSMO'24, YITP, Kyoto University, Japan.

[08/2024] – **Poster Presentation** in Frontiers of Particle Physics Conference, Centre of High Energy Physics, IISc.

[04/2024] – **Oral Presentation** in In-house Symposium at the Raman Research Institute, Bangalore, India.

[02/2024] – **Poster presentation** in 42nd Annual Meeting of Astronomical Society of India (ASI), IISc, Bangalore.

[12/2023] – **Oral presentation** in 10th International Conference on Gravitation and Cosmology (ICGC) at Indian Institute of Technology (IIT), Guwahati, India.

[12/2023] – **Poster presentation** in 21-cm Cosmology Workshop at NISER, Bhubaneshwar, India.

[04/2023] – **Attended** a school on the Less Travelled Path to the Dark Universe, held at the International Center for Theoretical Sciences (ICTS), Bangalore, India.
